

# VETIVER INITIATIVES IN PAPUA AND WEST PAPUA, INDONESIA

David S. Price  
&  
Michael P. Cochran

Time: 05 - 08/05/2015

Venue: DaNang University Of Technology, Viet Nam

# LEAD Asia

- Specializes in development through Multi-Lingual Education (MLE)
- Senior Environmental Consultant

# Outline

- New Guinea (and Papua) overview
- Papua Initiatives
- West Papua Initiatives

“More people are affected by the negative impact of poor water supply and sanitation than by war, terrorism, and weapons of mass destruction combined.”

Dr. Jamie Bartram,  
Coordinator Water, Sanitation and Health Program, W.H.O.  
*‘The Lancet’*

“No single measure would do more to reduce disease and save lives in the developing world than bringing safe water and adequate sanitation to all.”

UN Secretary-General Kofi Annan, UN Millennium Conference  
September 2000

*Relevant basic requirements listed in the Indonesian Building Codes:*

1. Septic tanks must be ***Watertight***.
2. No ***untreated*** wastewater may be disposed of in public drains.
3. In ***high*** water tables, flows in leachfields must be ***horizontal***, not vertical.
