TOTAL	51

How concerned are you or your clients about the invasiveness potential of Vetiver?

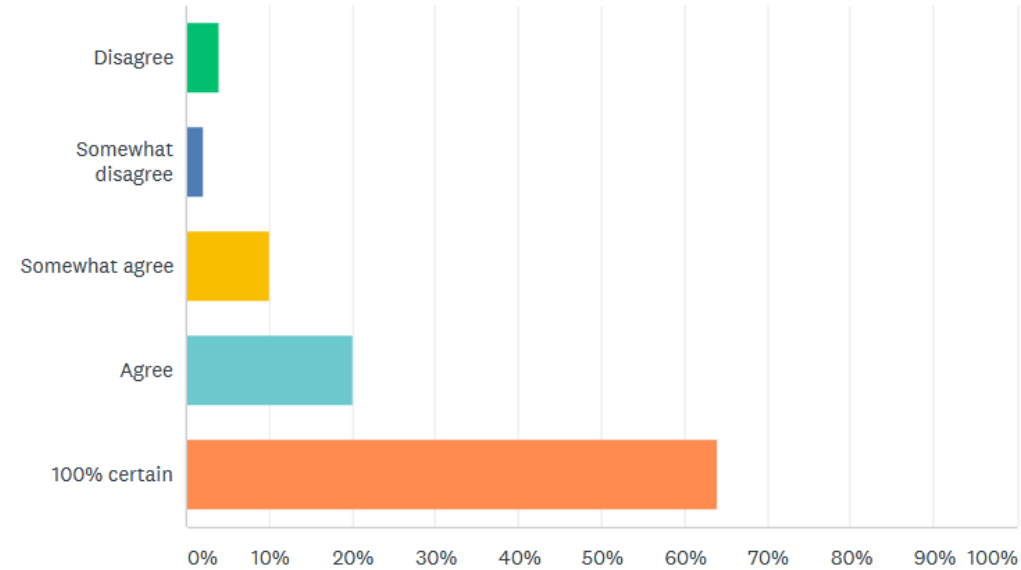

Answered: 50 Skipped: 1

ANSWER CHOICES	RESPONSES
▼ Not at all	34.00% 17
▼ This concern arises, but it is not significant	44.00% 22
▼ Occasionally, and because of this concern Vetiver was not considered an option	6.00% 3
▼ Commonly, and because of this concern Vetiver was not considered an option	6.00% 3
▼ Always or almost always, and in result the use of Vetiver is generally not an option	10.00% 5
TOTAL	50

How much do you agree with this statement “I am confident that I know the source of the Vetiver I grow or use, and that I have the non-invasive, non-fertile varieties”

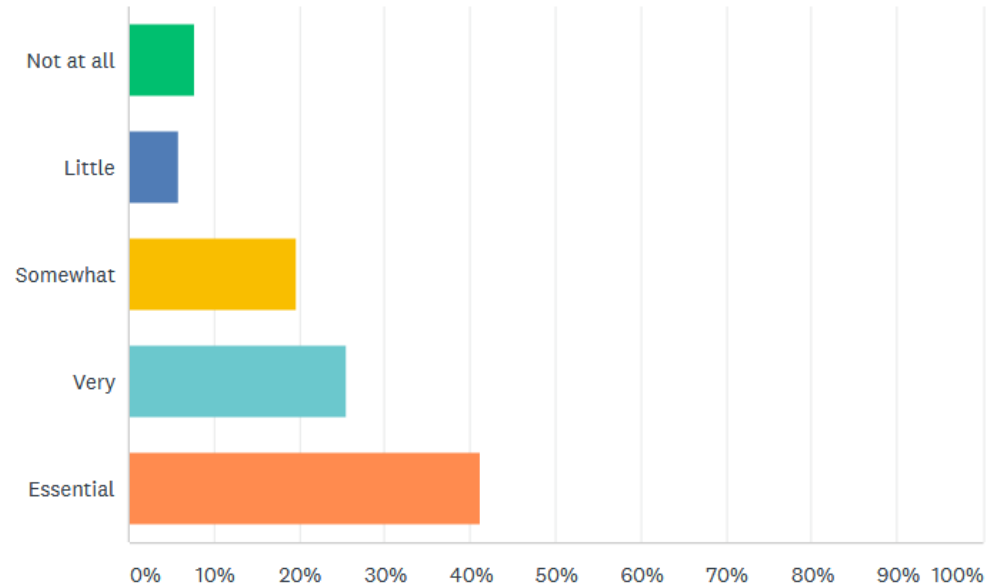

Answered: 50 Skipped: 1

ANSWER CHOICES	RESPONSES
Disagree	4.00% 2
Somewhat disagree	2.00% 1
Somewhat agree	10.00% 5
Agree	20.00% 10
100% certain	64.00% 32
TOTAL	50

How important would it be to you to have verification that the Vetiver you are supplying or purchasing is from the genetic cluster of the non-fertile Vetivers?

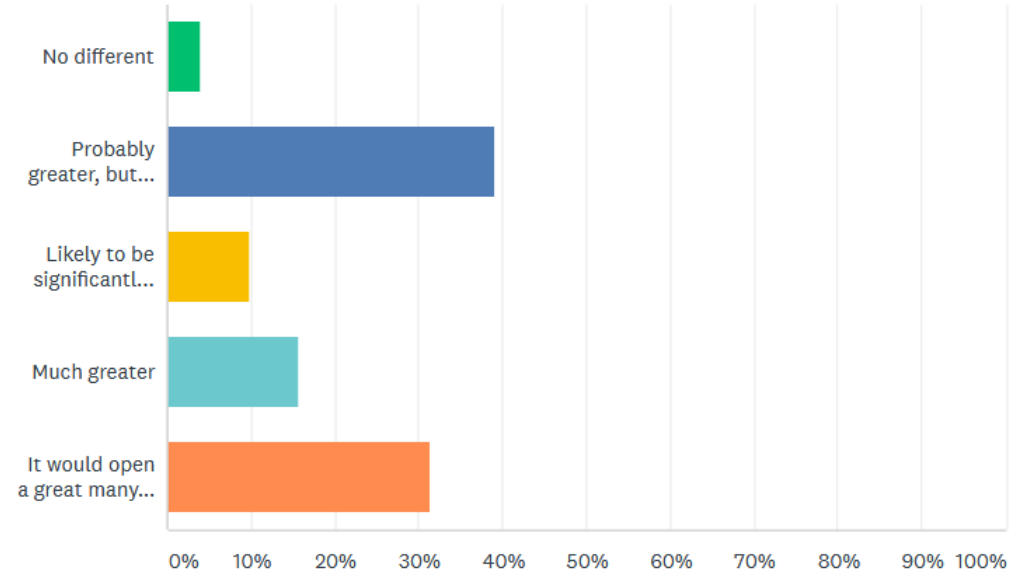

Answered: 51 Skipped: 0

ANSWER CHOICES	RESPONSES
▼ Not at all	7.84% 4
▼ Little	5.88% 3
▼ Somewhat	19.61% 10
▼ Very	25.49% 13
▼ Essential	41.18% 21
TOTAL	51

If TVNI could provide a certificate validating that the Vetiver produced in a specific nursery has been genetically tested and found to be from the genetic cluster of the non-fertile Vetivers, would your market opportunities (grower/supplier, contractor), or demand (government/company) be:

Answered: 51 Skipped: 0

ANSWER CHOICES	RESPONSES
▼ No different	3.92% 2
▼ Probably greater, but not significantly	39.22% 20
▼ Likely to be significantly greater	9.80% 5
▼ Much greater	15.69% 8
▼ It would open a great many new possibilities	31.37% 16
